slowly until the amount has been
reduced to less than one cup. It
should be sort of a syrup, very
smooth and thick. Scald the milk
in double boiler with the butter
added. Now site in the cocon syrup
and serve immediately. There is a
contention amous some that the

I tablespoon flour.

I cup water.

I t-2 cups milk.

Hiend the sugar, flour and cocoa.

Sur in the cold water and in a small vessel, bring to the botling point and cook five minutes. Add the heated milk and serve. The flour gives just enough thickening for the cocoa to have "body" to it and for many, makes a much better drink than when it is thin.

Egg Cocoa.

(1 1-2 pins.)

At a little evening gathering, cocoa was served and it seemed to me it was the best I had ever tasted. So many remarked about it, that the hostess was asked how she made it. And she said. "Oh, about in the usual way, only I put an erg in to give it, body. Here are the amounts:

## Bread is cheaper

The cost of good bread in Tulsa has just been brought down by a reduction in the wholesale price of 11 cents a pound. What other staple foods have shown a similar reduction?

Even before this price drop, bread was the cheapest food you could buy and now there is still more economy in its

By the cheapest we mean that bread gives you more actual food for the money than you get in any other eatable. You can appease hunger and keep alive longer on a dollar's worth of bread than on a dollar's worth of any other food sold.

Eat more bread to bring down your cost of living.
